

FARE

Food Allergy Research & Education

RECEIVED JUN 28 2021

July 21, 2021

Shelby Holland, President, GFWC Georgia
Georgia Federation of Women's Club
PO Box 39
Tallahassee, GA 30573

Dear Ms. Holland,

Thank you so much for choosing FARE to be the beneficiary of the State President's Special Project! Your support is vital to our work for a future free of food allergies and intolerances. Leveraging your gift with those from fellow supporters, we can provide data-backed educational resources, world-class scientific and clinical resources, a portfolio of basic science and clinical trials, and ultimately solutions that meet the complex needs of our community to help them live their best lives. Please pass on our sincere appreciation to the member clubs for their generous support!

As the world's leading non-profit food allergy advocacy organization and the largest private funder of food allergy research, we have made enormous strides and significant breakthroughs – and continue to push forward. One such recent victory was the passage of the FASTER Act, which could not have been achieved without the steadfast commitment of more than 500 food allergy advocates who participated in FARE's virtual Courage at Congress event in March 2021. Thanks to their engagement and conversations with more than 200 lawmakers and staff, plain-language labeling of sesame will now be required on packaged foods, and food allergy research will be given greater priority by the federal government.

Our recently launched FAITH Challenge will motivate the world's brightest research minds to develop and validate a safe and accurate diagnostic alternative to the oral food challenge. Food challenges require considerable time and resources and can take a heavy emotional and physical toll on children and adults. Next-generation advances in food allergy diagnosis can expand access to patient care, remove barriers to participation in clinical research and treatment, and ease the burdens on food allergy patients and families.

We hope you take immense pride in knowing that your commitment to FARE supports important initiatives that change and save lives and deliver solutions. Please visit www.foodallergy.org/take-action to stay connected and learn more about how you can continue to make a difference. On behalf of FARE and the 85 million Americans impacted by food allergies or intolerances, thank you for your support.

Sincerely,

Lisa Gable
Chief Executive Officer

Many companies match employees', retirees' and employees' spouses' donations. With a matching gift, your donation may be doubled or tripled in value, thereby maximizing the impact you can have. Check with your HR department to see if your contribution can go even further with a matching gift.

Civic Woman's Club of Milledgeville / Gift Amount: \$300.00

Carrollton Civic Woman's Club / Gift Amount: \$100.00

Georgia Federation of Women's Club / Gift Amount: \$103.00
